

IT5106 - SOFTWARE DEVELOPMENT PROJECT

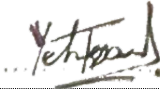

Progress Report <01>

Project Identification Information

Project title	: Web-Based National Park Management System for YALA NATIONAL PARK
Student's name with initials	: K.G.N.R. Kalawitagoda
Index no.	: 2000687
Supervisor's name	: MR.T.M.S. Yehen Tennakoon

<u>Progress Report Period</u>	
Start Date: November 12 th	End Date: January 8 th
<u>Work Carried out between this meeting and previous meeting</u>	
The below tasks were carried out during this period:	
<ul style="list-style-type: none">Gathering user requirements, so this process includes:<ul style="list-style-type: none">A discussion with the project manager to clearly define the overall objectives of the project, strategic goals and how the project fits into the organizational context.After onsite observations, recorded it and provided it to the project manager for verification.Be certain that the requirements satisfy the objectives and the scope of the project.Analysis and feasibility study of gathered requirements:<ul style="list-style-type: none">Verify that the requirements have been gathered are correct and complete with the project's goals and objectives by reviewing them.Evaluate how well the proposed solutions fit with existing processes.	

<u>Problems Encountered</u>
<ul style="list-style-type: none"> I had difficulties in understanding the project's specific requirements. Since there is no any involvement of a client, requirements may be unclear which makes it difficult to capture the expected functionalities and features.
<ul style="list-style-type: none"> I had a major problem in enhancing the project scope. So, it made difficulties in analysing requirements.
<ul style="list-style-type: none"> Since the project manager was in a busy schedule, she was able to allocate meetings at the last moment so I had delays in decision making.
<u>Planned work that were unable to carry out with reasons</u>
<ul style="list-style-type: none"> Unexpected difficulties that occurred during requirement gathering prevented the planned work from moving further as planned.
I couldn't draw the use case diagram and the class diagram as I expected since allocating more time in requirement gathering.
I tried to identify the database records, but I was unable to do so.
<u>Work planned until next meeting</u>
According to the feedback I received from my supervisor, I intend to complete the following tasks until our next scheduled meeting.
<ul style="list-style-type: none"> Plan to draw the use case diagram.
<ul style="list-style-type: none"> Identify the records relevant to the database system.
<ul style="list-style-type: none"> Determine to begin the system design process.
<ul style="list-style-type: none"> Plan to draw the required UML diagrams including the class diagram.

Meeting information			
Meeting Date: 5th January 2024			
Meeting time	Start: 6:00 pm	End: 7:00 pm	
Number of participants: 2			
Supervisor's Comments			
Student has done	<input type="checkbox"/> More than enough <input checked="" type="checkbox"/> Sufficient <input type="checkbox"/> Not Enough <input type="checkbox"/> No	work.	
Student is progressing	<input type="checkbox"/> Well ahead <input checked="" type="checkbox"/> Sufficiently <input type="checkbox"/> Not Enough	in the project.
